Neo-vascular Age Related Macular Degeneration-Shifting Paradigms

Dear Members of OSOS, All Postgraduates in Medical College, All Eye Care Professionals,

Our Heartiest Greetings!

We are delighted to announce a continuing professional development program, **CROSSROADS**, organized by the Muralidhar Education & Health Foundation under the aegis of Odisha State Ophthalmological Society (OSOS).

This scientific deliberation holds significant importance for all of us. Age-related macular degeneration (AMD) is the second leading retinal cause of visual impairment and blindness, following diabetic retinopathy. The numerous technological advancements in this field necessitate a standardized treatment algorithm for neovascular AMD.

We are honored to have renowned retina specialists from both the state and nation as our esteemed speakers. These experts have made significant contributions to understanding and treating this disease.

Building upon the success of past CROSSROADS programs, this upcoming CME promises to be exceptionally educational.

We encourage all of you to actively participate in this informative program. Your presence will contribute significantly to advancing evidence-based care for our patients.

Organising Team

Prof. Dr. K.C Padhy Dr. S.T Muralidhar Dr. Tara Prasad Das
